

YAS to attend IFAC Symposium SYSID 2009

A specific agreement has been signed between the IFAC Foundation and the French IFAC NMO to launch a YAS Program to attend the IFAC [Symposium on System Identification SYSID 2009](#), to be held in Saint - Malo, France, July 6-8, 2009.

Eligible for support are authors of **accepted** technical papers - French or citizens of a developing country - whose age will be less than 30 years during the Symposium: Only one author per paper can be supported.

A developing country is understood to be one which is not in the list of high income countries.

The support consists of a lump sum to help defray the cost of registration, accommodation and travel expenses related to the symposium.

Applications should be addressed to the symposium organizer by eligible authors.

A presentation of the paper at the symposium by the winner is a requisite for support.
